You can also choose to split your policy into multiple policies with the policy-split option for legacy planning possibilities. What's more, you can strategically exercise both the policy-split and the policy currency conversion option for even greater asset allocation flexibility and easier access to global opportunities.

Global goals, flexible future

MaxFocus Global Insurance Plan is designed to help you and your family achieve multiple life goals with key features that let you plan with greater flexibility to capture global opportunities in currency markets.

Enjoy wealth growth through a hybrid investment approach

The Plan is designed to provide guaranteed returns while enhancing your financial prospects by delivering potentially higher long-term returns through a strong equity portfolio.

Take advantage of global currencies

To give you even greater financial flexibility, the Plan includes a policy currency conversion option that allows you to take advantage of conversion for any designated global currencies (including British Pound Sterling (GBP), Canadian Dollar (CAD), Australian Dollar (AUD), Singapore Dollar (SGD), Euro (EUR), US Dollar (US\$), Renminbi (RMB), HK Dollar (HK\$)) starting from the 3rd policy anniversary to accelerate your goals or accommodate to new ones.

Split your policy as you wish

With the policy-split option, you can split your policy into two or more policies starting from the 5th policy anniversary as a legacy planning solution.

Your legacy, your way

After the end of the 1st policy year, you can change the insured as many times as you want, to meet your evolving legacy planning needs. You can also nominate a contingent insured or a contingent policy owner to ensure smooth policy extension in any circumstances.

Choose a premium payment option that suits your needs

You can choose your premium payment option - single payment or 3 years*, 5 years, 10 years or 18 years - to match your wealth management strategy.

* This is a limited offer and its availability is at the discretion of FWD.

Shield your wealth from an unstable market

From the 15th policy year onwards, as long as the policy has been paid up, you can exercise the special bonus lock-in option to convert part of the special bonus into annual dividends to safeguard your wealth against market fluctuations.

A wealth of benefits and options for accessing a world of opportunities

Providing your wealth with long-term growth potential

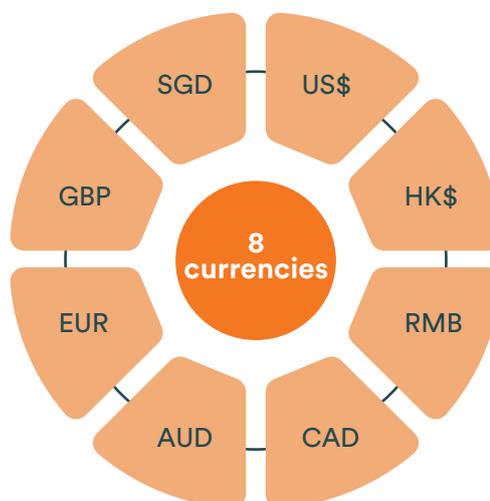

The Plan is a participating insurance plan. The policy values of the Plan comprise guaranteed cash value, annual dividend (non-guaranteed) and special bonus (non-guaranteed). With a relatively high allocation in equity-type investments, it aims to deliver higher potential returns in the long term. For details, please refer to the section of dividend/bonus information and investment strategy.

Flexible premium term and cash withdrawals to meet your financial needs

Multiple premium payment terms for flexible planning

You can choose to pay for the Plan in a single payment or over a premium payment term of 3 years*, 5 years, 10 years or 18 years to meet your needs. For your policy currency, you can select from any of the 8 currencies - HK\$, US\$, RMB, GBP, CAD, AUD, SGD or EUR, to suit your wealth planning. You may also prepay premiums in advance by using the premium deposit account (Note 1).

*This is a limited offer and its availability is at the discretion of FWD.

Cash withdrawals for added financial flexibility

You may choose to withdraw cash from the policy at any time to enhance your liquidity:

- (1) Make a one-off withdrawal or exercise the regular withdrawal service (Note 2) after the end of the premium payment term to withdraw the accumulated annual dividends and interest (if any).
- (2) You may also choose to withdraw the guaranteed cash value and special bonus (if any) through partial surrender. For details, please refer to the partial surrender benefit under the summary of plan features.

Maximize your exposure to global currencies

We understand you want to have the options to capture currency appreciation opportunities whenever they appear. Starting from the 3rd policy anniversary and while the policy is in force, you can exercise the policy currency conversion option (Note 3) to change your policy currency to another currency(ies) selected by you (including US\$, HK\$, RMB, AUD, CAD, EUR, GBP, SGD or any other available currencies determined by us), by converting your plan to a designated plan (may or may not be the same as MaxFocus Global Insurance Plan) that is available in your chosen new currency. Through the policy currency conversion option, not only can you keep pace with market trends but capture currency opportunities to accumulate potential wealth with extra financial flexibility.

Infinite possibilities for planning your legacy

Policy-split option for effective asset planning

Starting from the 5th policy anniversary and while the policy is in force, you may apply to exercise the policy-split option (Note 4) once per policy year according to your needs and transfer a designated percentage of notional amount of your original policy to one or more separated policy(ies).

Coupling with the change of insured option (Note 5) and/or the change of policy owner option (Note 6), you can then pass on the separated policy(ies) to your loved ones in according with your wishes. The policy term of a separated policy will be changed to age 138 (age next birthday) of the new insured and they may choose to keep each separated policy to accumulate wealth or exercise all rights under the separated policy(ies) (e.g. make a withdrawal of the accumulated annual dividends and interest (if any)).

You may also strategically exercise the policy-split option together with the policy currency conversion option (Note 3) for even greater asset allocation flexibility and easier access to global opportunities by simply changing the currency of any of the separated policies after the policy-split option is exercised.

Unlimited times for change of insured for endless wealth inheritance

You may exercise the change of insured option (Note 5) after the end of the 1st policy year for unlimited times while the insured is alive. The policy term will then be changed to age 138 (age next birthday) of the new insured, maintaining inherited wealth through generations.

Contingent insured and contingent policy owner for continuous policy extension

You may nominate a contingent insured (Note 7) while the policy is in force and the insured is alive. In the event of the death of the insured after the end of the 1st policy year, the nominated contingent insured will automatically become the new insured, eliminating the possibility of policy termination resulting from the unexpected death of the original insured. In addition, you can nominate a contingent policy owner (Note 8) while the policy is in force so that the policy can be managed by the contingent policy owner in the event of the death of the original policy owner, sustaining the passing on of your legacy.

Death benefit settlement option for flexible wealth allocation

To provide you with greater flexibility in your wealth allocation, you may choose the death benefit settlement option (Note 9) for the payment of death benefit, family accidental death benefit (if applicable) and the specified amount under any attached rider(s) in the form of a lump sum payment or regular installments (annually / monthly), or a mix of both if the insured passed away. You may also set the installment term and amount in advance so that your beneficiary can receive the death benefit, family accidental death benefit (if applicable) and the specified amount under any attached rider(s) in the way chosen by you while the remaining amount will be left in our company to accumulate interest (non-guaranteed) until the full amount has been paid to the beneficiary.

Premium holidays for extra financial planning options

Starting from the 2nd policy year and during the premium payment term, you can apply for a premium holiday (Note 10) to accommodate your financial planning while the policy is in force. Available to customers who have selected the Plan with premium payment term of 5 years, 10 years and/or 18 years*, the premium holiday provides for a suspension of premium payments for 2 years (for premium payment term of 5 years) or 4 years (for premium payment term of 10 or 18 years) while the policy remains in force (please refer to the summary of plan features for details). If the policy owner is unfortunately diagnosed with one of the covered illnesses (cancer, heart attack or stroke), the Plan offers additional 1 year extended premium holiday period. The extended premium holiday period will be offered for once per policy even if more than one covered illness is diagnosed.

During the premium holiday, the annual dividend will not be paid while any accumulated annual dividends and interest (if any) remained in the policy will continue to earn interest (if any). The guaranteed cash value, special bonus (non-guaranteed which is subject to the latest bonus scales determined by us) and notional amount will be remained unchanged and equal to the amount immediately before premium holiday takes effect provided that there is no partial surrender during the premium holiday period. Once the premium holiday request is approved, any rider(s) attached to the policy will be automatically terminated and no riders can be attached afterward.

* With premium payment term of 18 years, you are not allowed to exercise special bonus lock-in option during premium holiday.

Special bonus lock-in option to secure your wealth against market volatility

The Plan also gives you the flexibility to secure part of your policy value in response to evolving financial priorities or changing market outlooks. Starting from the 15th policy year provided that the policy has been paid up and while the policy is in force, you can apply for special bonus lock-in option to convert a certain amount of the special bonus into annual dividend and leave it with the policy to accumulate interest (if any) by exercising one of the following options. The amount of special bonus which you apply for special bonus lock-in option is lock-in value (Note 11).

1) Automatic lock-in option (Note 12)

This option allows you to convert a certain amount of special bonus, equivalent to 10% of total premiums paid, into annual dividend. Once we have approved your request, the lock-in value of special bonus will be automatically converted on each subsequent policy anniversary.

2) Flexi lock-in option (Note 13)

You can apply to convert a specified percentage of special bonus (“lock-in percentage”) into annual dividend, subject to the annual minimum and maximum lock-in percentage which are 10% and 70% respectively. This option can only be exercised once every policy year and on the policy anniversary.

Once automatic lock-in option or flexi lock-in option has been exercised, the lock-in value will not be allowed to be reversed back to special bonus. The special bonus as at the relevant policy year and any special bonus which we may distribute for subsequent policy years will be lowered due to conversion of special bonus to annual dividend exercised.

Protect your loved ones from life’s uncertainty

Life protection for your peace of mind

To take care of your loved ones, if the insured unfortunately passes away while the policy is in effect, the Plan provides a life protection with a lump-sum death benefit, which is the higher of (i) guaranteed cash value and non-guaranteed special bonus (if any) or (ii) 100% of the total premiums paid, plus accumulated annual dividends and interest (if any).

Extra protection for your family

There’s no greater peace of mind than knowing that your family will be well taken care of no matter what. If the insured and/or a direct family member of the insured passes away due to an accident within 180 days from the date of accident during the first 5 policy years while the policy is in force, a family accidental death benefit (Note 14) equal to 100% of total premiums paid will be paid to help alleviate the financial impact.

Celebrate your child's scholastic achievements

Children need encouragement. If you apply for the Plan with your child as the insured, we will give your child a big thumbs-up for scholastic success through the outstanding performance awards (Note 15). Dividend/bonus information & investment strategy

Dividend/bonus information

The non-guaranteed annual dividend, non-guaranteed special bonus and non-guaranteed interest for accumulated annual dividends are determined based on the latest dividend/bonus declaration philosophy and investment strategy of FWD Life Insurance Company (Macau) Limited (“FWD”, “We” or “us”) that shown below (Please refer to FWD’s website for latest information:

<https://www.fwd.com.mo/en/regulatory-disclosures/dividend-bonus-declaration-philosophy/>)

You may also refer to below FWD’s website for dividend/bonus history:

<https://www.fwd.com.mo/en/regulatory-disclosures/fulfilment-ratios/>

Dividend/bonus declaration philosophy

FWD issues participating policies, which offer the policyholders (“You”) with dividend/bonus benefits that are not guaranteed. Dividend/bonus includes annual dividend (including interest on accumulated dividends), terminal dividend, reversionary bonus and special bonus.

Through the dividend/bonus declaration, you participate in the financial performance of the participating products. The financial performance covers the experience and future outlook of a number of factors, including but not limited to:

1. Investment return;
2. Expenses;
3. Persistency;
4. Claims experience.

FWD reviews the dividend/bonus at least annually based on our dividend policy. The dividend/bonus could be adjusted if the financial performance is different from the expectation, and as a result the actual declared dividend/bonus may be different from the benefit illustrations. FWD may also deduct as appropriate any cost and expense to support the policy benefits (such as charges to support guarantee) which will be reflected in the actual declared dividend/bonus.

The dividend/bonus recommendation is reviewed and approved by our Board of Directors (the “Board”), with written declaration by the Chairman of the Board, an Independent Non-Executive Director / Chairman of the Supervisory Board and the Appointed Actuary on due regard to our dividend policy as well as the principle of fair treatment of customers.

The current year and projected dividend/bonus would be communicated to you at least annually. Any changes in the current year and projected dividend/bonus will be reflected in the policy annual statement.

Smoothing

Financial performance is unforeseeable. To facilitate your financial planning, we have a smoothing process aiming to deliver a more stable dividend/bonus payouts during the policy term.

When the financial performance is better (worse) than expected, we may hold back a portion of the gains (losses), which will be passed back to you over the future years to ensure a more stable dividend/bonus payouts. Due to the variation of features and benefits of different products, different levels of smoothing may also be applied.

Pooling

Consistent with the nature of insurance contracts, we also group similar policies together to pool the risks amongst a larger number of policyholders to provide diversification benefits, which help to stabilize the financial performance (and hence the dividend/bonus payouts).

To maintain the fairness between policyholders, we may also separate different generations of policies of the same product into different buckets with different dividend/bonus scales, with an aim to more closely reflect the underlying financial performance. As a result, the frequency and magnitude of the dividend/bonus adjustments may vary among different products and buckets. In general, the adjustments on dividend/bonus are more frequent and significant for products with higher risk profile.

Dividend/bonus information & investment strategy

Target profit sharing ratio

The dividend/bonus could be adjusted if the financial performance is different from the expectation, and as a result the actual declared dividend/bonus may be different from the benefit illustrations. The target profit sharing ratio of your policy is not less than 65% and represents the target proportion of financial performance that will be passed-through to you through dividend/bonus declarations over the entire policy term.

Investment strategy

FWD's investment strategies are customized for different products to optimize the return. In particular, these asset portfolios employ a balanced asset allocation investment strategy, which consists of

- Investment-grade fixed income-type securities
- Equity-type investments to enhance the investment performance in the long run. This may include listed equity, hedge funds, mutual funds, private equity and property

The current long-term target asset allocation of this product is as follows:

Asset type	Target asset allocation (%)
Fixed income-type securities (y)	25% < y < 100%
Equity-type investments (x)	0% < x < 75%

The asset portfolios also target to provide diversification across different geographic regions and industries to the extent the size of portfolio can support. We may also utilize derivatives to manage our investment risk profile and for hedging purposes.

Our currency strategy is to mitigate the currency exposure through matching the asset portfolio to the underlying policy denomination. For fixed income-type securities, this may be achieved through direct investments in the underlying policy denomination or use of currency hedging instruments if the currency of the investment is different from the underlying policy denomination. For equity-type investments, they may carry a currency exposure different from the underlying policy in order to provide diversification benefits through investments across various geographical areas and industries.

Furthermore, the asset portfolio is actively managed by investment professionals to closely monitor the investment performance and investment outlook. In addition to conducting regular review, FWD also reserves the right to change the investment strategy and shall notify policyholders for any material changes.

Investment vehicle

The dividend/bonus rate will be influenced by the performance of the underlying investment portfolio, which consists of both fixed income-type securities and equity-type investments. The performance is not static and will be highly affected by the change in market conditions:

Fixed income-type securities

- The return of fixed income-type securities arise from the interest income ("the yield") attained at the purchase of the securities. Under a higher (lower) market interest rates environment, the company is more likely to attain higher (lower) interest income with the new money (e.g. proceeds from coupons, maturities, new contributions);
- The defaults or downgrades of the fixed income-type securities will result in unfavorable investment performance.

Equity-type investments

- The movement of the market price of the equity-type investments will result in change in the market value of the portfolio. Rise (fall) in the market price will increase (decrease) the market value of the portfolio.
- The change in dividend-type income from the equity-type investments will impact the investment results. Higher (lower) dividend-type income from the underlying investment will improve (worsen) the investment results.

Notes

1. Premium deposit account

To make application for a deposit to the premium deposit account, a completed and signed prescribed form should be submitted to FWD. The form can be obtained from your advisor or from FWD. Please refer to your advisor or FWD for more information of the premium deposit account.

2. Cash withdrawal

Any amount withdrawn will be taken from the accumulated annual dividends and interest (if any). If there is not enough value in the accumulated annual dividends and interest (if any), the remaining withdrawal amount will be taken from the guaranteed cash value and special bonus (if any) as a partial surrender. Any partial surrender will reduce the notional amount. The total premium paid, subsequent guaranteed cash value, annual dividend (if any) and special bonus (if any) will be reduced on a proportional basis from the effective date of partial surrender, according to the reduction in notional amount. Surrender benefit, family accidental death benefit and death benefit will be reduced accordingly. If cash withdrawal and special bonus lock-in option are exercised on the same day, the special bonus will first be converted as part of accumulated annual dividends.

You can apply for the regular withdrawal service by written application after the policy has been paid-up and while the policy is still in effect. When the application is approved, the selected withdrawal amount will be directly credited to the designated account of policy owner. The minimum monthly withdrawal amount is HK\$1,000 / US\$125 / RMB800 / GBP125 / CAD200 / AUD200 / SGD200 / EUR125, and the maximum annual withdrawal amount is 5% of the policy value, which may be determined in FWD's sole discretion from time to time. If you exercise the regular withdrawal service in early policy years, the amount withdrawn together with the policy values remained in the policy may be considerably less than the total amount of the premiums you paid. We will terminate the regular withdrawal service if the notional amount after the withdrawal would be below the minimum amount prescribed by FWD, or your request to exercise the policy currency conversion option is approved by us or your request to exercise the policy-split option is approved by us. For detailed termination conditions of regular withdrawal service, please refer to the policy provisions.

Starting from the 3rd policy anniversary and whilst the policy is still in effect, policy owner may request to change the current policy currency to another currency by converting the policy to a designated plan available and as determined by FWD ("New Plan"), provided that:

Upon our approval of the application for exercising the policy currency conversion option:

- Your current policy will be exchanged to the New Plan denominated in the new policy currency. The New Plan may or may not be the same as the insurance plan as your current policy. Hence, product features, benefits and policy terms of the New Plan may be different from those under your current policy. All benefits, terms and conditions will follow those as provided under the New Plan, except for the commencement date, policy date and policy years of the current policy which will remain unchanged.
- The total cash value (including guaranteed cash value, special bonus (if any) and accumulated annual dividends and interest (if any)) of the policy will be converted to the new policy currency under the New Plan according to the prevailing currency exchange rate (which is determined in FWD's sole discretion) as at the effective date of the policy currency conversion option.
- FWD will determine and adjust (either increase or decrease) in its sole discretion the current and future policy values (including guaranteed cash value, special bonus (if any) and accumulated annual dividends and interest (if any)), notional amount and premiums payable (if any) for the New Plan after exercising the policy currency conversion option, based on factors including but not limited to prevailing currency exchange rate (which is determined in FWD's sole discretion), the investment yield and asset values of the existing and new underlying portfolio of assets of the New Plan, and/or the transaction from the existing to new assets.

- At the time of making the application for exercising the Policy-Split option and our approval of the application, the policy is not in the status of premium holiday (if applicable).

Upon our approval of the application for exercising the Policy-Split option:

- We will terminate the benefit entitlements of the baby bonus and outstanding performance awards of the original policy and separated policy(ies) immediately.
- Policy values of the original policy including guaranteed cash value, accumulated annual dividend and interest (if any) and special bonus (if any) will be reduced to reflect the transfer of notional amount to the separated policy(ies), and allocated to the separated policy(ies) according to the Transfer Percentage.
- The premiums payable under the original policy and the separated policy(ies) will be adjusted according to the latest notional amount of each of the policy.

Key product risks

Credit risk

This product is an insurance policy issued by FWD. The application of this insurance product and all benefits payable under your policy are subject to the credit risk of FWD. You will bear the default risk in the event that FWD is unable to satisfy its financial obligations under this insurance contract.

Liquidity risk

This product is a long term insurance policy. This policy of long term insurance will be made for certain determined term of years starting from the policy effective date to the policy maturity date. The policy contains value and, if you surrender your policy in the early policy years or before its maturity date, the amount you get back may be considerably less than the total premium you have paid. If you have selected the prepayment option for regular premium payment policies, all amounts in the premium deposit account will not be refunded or returned to you unless the policy is cancelled or surrendered. You should make sure that you intend to leave your prepayment amount in your premium deposit account. Application of the Plan may constitute the liquidity risk to your financial condition. You need to bear the liquidity risk associated with the Plan.

Exchange rate and currency risk

The application of this insurance product with the policy currency denominated in a foreign currency is subject to that foreign currency's exchange rate and currency risk. The foreign currency may be subject to the relevant regulatory bodies' control (for example, exchange restrictions). If your home currency is different from the policy currency, please note that any exchange rate fluctuation between your home currency and the policy currency of this insurance product will have a direct impact on the amount of premium required and the value of benefit(s) to be received. For instance, if the policy currency of the insurance product depreciates substantially against your home currency, there is a negative impact on the benefits you receive from the product. If the policy currency of the insurance product appreciates substantially against your home currency, your burden of the premium payment is increased.

RMB conversion limitation risk

RMB Insurance is subject to exchange rate fluctuations which may result in losses in the event that the customer converts RMB into HK\$ or other foreign currencies. RMB is currently not freely convertible and conversion of RMB may be subject to certain policy, regulatory requirements and/or restrictions (which are subject to changes from time to time without notice), which may result in loss. The actual conversion arrangement will depend on the policy, regulatory requirements and/or restrictions prevailing at the relevant time.

Risk from exercising the policy currency conversion option

The mix of the policy values (including guaranteed cash value, special bonus (if any) and accumulated annual dividends and interest (if any)) of your policy may be adjusted significantly after exercising the policy currency conversion option. The projected policy values (including guaranteed cash value, special bonus (if any) and accumulated annual dividends and interest (if any)) of your policy may also be adjusted significantly (either increase or decrease) from the corresponding values before exercising the policy currency conversion option. Any future premiums may be adjusted significantly if the policy currency conversion option is exercised within the premium payment term. The availability of currency at the time of exercising the policy currency conversion option will be subject to the applicable laws and regulations and determined in FWD's sole discretion. The New Plan may or may not be the same as the insurance plan as your current policy. Hence, product features, benefits, policy terms and investment strategy of the New Plan may be different from those under your current policy. Please note that the policy currency conversion option may not be available in the New Plan after exercising the policy currency conversion option, which means you may not be able to further change the policy currency of the New Plan and in a worst-case scenario, it may only be a one-time option depending on the New Plan's features. Any riders attached to the policy will be terminated if it is not offered under the New Plan or is not available in the new policy currency.

Key product risks

Inflation risk

The cost of living in the future may be higher than now due to the effects of inflation. Therefore, the benefits under this policy may not be sufficient for the increasing protection needs in the future even if FWD fulfills all of its contractual obligations.

Early surrender risk

If you surrender your policy in the early policy years or before its maturity date, the amount of the benefit you will get back may be considerably less than the total amount of the premiums you paid.

Non-guaranteed benefits

Non-guaranteed benefits (including but not limited to annual dividend/special bonus) are not guaranteed and are determined at FWD's discretion based on its dividend/bonus declaration philosophy. Under certain circumstances, the non-guaranteed benefits may be zero. We will give you a written notice 30 days prior to any adverse adjustment of non-guaranteed benefits.

Premium term

The premium payment term of the policy is single premium, 3 years*, 5 years, 10 years or 18 years.

* This is a limited offer and its availability is at the discretion of FWD.

Non-payment of premium (not applicable to single premium policy)

FWD allows a grace period of 30 days after the premium due date for payment of each premium. If a premium is still unpaid at the expiration of the grace period and the policy has no cash value, the policy will be terminated from the date the first unpaid premium was due, unless the premium holiday has been exercised. If the policy has any loanable cash value, FWD shall automatically advance the amount of premium due as a loan against such loanable cash value of the policy. Once the total amount of outstanding loan and interest accrued thereon is equal to or exceeds the loanable cash value of the policy, the policy will be terminated and you may lose all of your benefits.

Termination conditions

The policy shall terminate on the earliest of the following:

- 1) From the premium due date, if you have not paid your premiums within the 30-day premium grace period (unless the premium holiday has been exercised or automatic premium loan applies).
- 2) On the date you surrender your policy.
- 3) On the date of the insured's death (if there is no contingent insured).
- 4) On the maturity date of the policy.
- 5) On the date your outstanding policy loan amounts (including interest and automatic premium loans) are equal to or greater than the total cash value* (excluding special bonus (if any)) of the policy.

* Total cash value is guaranteed cash value, plus unpaid accumulated annual dividends and interest (if any) plus special bonus (if any).

Exclusion from suicide

We will not pay any death benefit if the insured commits suicide within one (1) year from the policy date (or from the date we restart your policy, whichever is later), our legal responsibility will be limited to an amount equivalent to any premium paid without interest, after deducting any benefits we have paid and any amounts owed to us. This applies regardless of whether the insured was sane or insane when committing suicide.

Exclusions for family accidental death benefit

The exclusions below apply to family accidental death benefit, we will not cover any loss / claim directly or indirectly caused by or resulting from any of the following:
